**Subject:** PLP water flow section  
**Attachments:** PastedGraphic-2.tiff; www.fish4thefuture.com; carolw@alaskalife.net

[IMAGE]

Rainfall patterns in western AK are predicted to increase by 20 to 50%.  
Has PLP incorporated these predictions into their models?  
How will this affect their confidence in their model?

Also It appears that they have water flow between North fork and Chulitna, something I have not seen before. Need the slide w/ the water flow arrows tho.

caw
